

The HLOPIR3 utilises passive infrared technology to detect heat radiation of moving human bodies. Upon detection, the attached heating load will activate for a user-determined time period. This product is suitable for wall or ceiling mount.

Efficiency

The PIR is part of the new generation of controllers from Heatlight Technology where the accent is on running cost and low environmental impact.

Product features include

- 12M detection range with 180° area detection.
- Suitable for up to 3KW infra red heaters.
- Head twists up or down.
- IP55 weatherproof rating.
- Adjustable heat ON time 5 secs – 18 mins. (We recommend a minimum time of 2 minutes to prolong the life of the infrared lamp)
- Manual ON/OFF override.
- Hinged back box for ease of wiring.
- Adjustable light level control.

Applications for this product include: -

- Patio Heating
- Parasols
- Farms
- Kennels
- Leisure facilities
- Garden Centres
- Sheds
- Garages
- Warehouses

Voltage	230
Maximum Watts	3000
Waterproof rating	IP55
Width	88mm
Height	65mm
Depth	120mm
Weight	0.2Kg
